PRAIRIE STAINED GLASS WINDOWS
Inspired by Frank Lloyd Wright & the Prairie School Architects

POMPEI STAINED GLASS
at Western Avenue Studios
122 Western Avenue Unit A416
Lowell, MA 01851
781-395-8867
The Pompei & Company stained glass studio was founded by Joseph Pompei in 1979. Joseph’s joined by his wife, Ivy Pompei, as a fulltime partner in 1981. After being located in Medford MA for 32 years, the Pompei studio moved to Western Avenue Studios, now the largest artists’ colony of its kind in the United States.

Over the past 40 years, Pompei & Company has gained a reputation among architects, interior designers, builders and homeowners as one of the East Coast’s premiere suppliers of Architectural Art Glass.

Inspired by the timeless simple beauty of the art glass windows of Frank Lloyd Wright and the Prairie School architects, Joseph Pompei has drawn upon his 40 years experience as an stained glass artisan to create this series of custom limited edition stained glass windows which capture the essence of the mission style, and incorporate Pompei’s unique stylistic thumbprint.

Each piece is custom fabricated in our Massachusetts studio, signed and dated by Joseph Pompei, and made to order taking into account your size, color and privacy needs.

More recently, the Pompeis welcomed their daughter Marissa as a full time studio member. Marissa is a fused glass artist, specializing in unique fused glass jewelry and accessories. Be sure to visit our new fused glass jewelry webpage and online Etsy store.

As committed artisans, the pursuit of excellence is reflected in all their own commissions. We invite you to visit to the Pompei studio in person or on-line at www.pompeiglass.com.
The Four Seasons may be ordered as a complete series or by individual art glass panel. The glass selected for each seasonal panel corresponds to Nature's own color palette and ranges from the violets, pinks and yellow of Spring to the icy crystal textures, greys and blacks found in the Winter scene.

*For Pricing see Price Group B- Page 21*
CUSTOM GLASS OPTIONS

Option 1 (as depicted) ~ artique background, red, green, cream opal and amber highlites
Option 2 ~ clear artique background*, dark blue, lite blue, white and opal blue highlites

* for privacy may substitute clear vecchio or clear ripple glass

see page 22 for glass samples
Price is a function of two factors - size, which is computed in square feet, and design detail. Additionally, we discount based upon the number of panels you order. To compute your cost, take the height and width of your window. Find the price table which corresponds to the price group of the design you are pricing. Then simply match the height and width of your window to the appropriate chart.

**Example:** To price the Wainwright House design in a size of 14-1/2" x 42-3/8” use Price Table A. The width of 14-1/2" inches is greater than the 12" table, so refer to the next highest column, 18". Similarly, the height is computed using the 48" row. Cost for this design in your size is **$1295.00**, plus crating. SHIPPING IS FREE!

### QUANTITY DISCOUNTING

Order 2 to 5 panels of the same size and glass colors & you receive a **5% discount**

6 + panels of the same size and glass colors & you receive a **10% discount**
Throughout the order process, you will work directly with Joseph Pompei who will assist you in determining a design direction along with the selection glass colors and textures.

Here’s how the process works:

• Contact Joseph Pompei via email (info@pompeiglass.com) or call us at 781-395-8867 to initiate a discussion about your project. You will discuss your goals, design themes, color palette privacy requirements and budget.

• After determining a design direction, you will be provided with an accurate price quote, including crating & shipping charges along with an estimated timetable for delivery.

• If you decide to proceed with the commission, you will be asked to provide a design deposit of 20% of your total order.

• After receipt of design deposit, a colorized design proof, with a glass color key, will be prepared and either emailed or sent to you via the US Postal Service.

• Upon the final approval of your design and selection of your glass, you will be asked to approve the design by signing off and returning the design to Pompei & Company, along with the balance of a 50% fabrication deposit.

• You will be notified when your commission has been completed and ready to ship, and be given the choice of paying the balance due C.O.D. or by prepaying with a bank check, VISA or Mastercard.

• Finally, in order to assure that your commission arrives safely, we build a museum quality custom crate for each shipment, and will include any special installation and maintenance instructions.

Typically there is no charge for shipping within the continental US. Certain orders. However, because of unusual sizing or high dollar value, may be assessed a partial shipping charge. In the unlikely event that your order might require a shipping fee, you will notified before you place your order.

Large quantity orders may need to be shipped via common carrier truck. If common carrier shipped there is a $150.00 delivery charge if you want your windows delivered to your job site or home. There is no extra charge if you pick up at the freight terminal.

In order to afford maximum shipping protection, your art glass is crated in a wood box equipped with rope handles for easy and safe handling. Each panel is wrapped in bubble wrap and surrounded with one inch styrofoam resulting in zero shipping damage over the past 18 months.

Boxing charge is based upon size and quantity:

1-3 panels sized up to 42” w or 42” h is $65.00; 4-6 panels $110.00; + 5 panels is quoted
1-3 panels sized over 42” w or 42” h is $85.00; 4-6 panels $145.00; + 5 panels is quoted
After placing your order and before we begin fabricating your commission, we will send you a colorized scaled design proof along with a set of glass samples for you to review and make any adjustments or changes in design or glass selection.

Should your color palette include colors or textures other than those depicted below, you always have the option of specifying custom coloring basis. **There is a no additional charge for most other glass selections.**
